Bootstrap Restyling — Login Page + Team Page

COSC2408 Capstone | Week 4 Sprint 1

Author: Ujjawal Mittal (BA/UX) | Date: 09/08/2026

1. Purpose

This document outlines the design decisions for the Login Page and Team Page restyling. All choices are based on the BA requirements document and are written so developers have exact values — fonts, colours, spacing, and sizes — without needing to interpret from images alone. All measurements are in pixels (px).

2. Colour Palette

The colour scheme uses deep forest green as the primary accent, paired with a warm off-white background for a clean, professional feel. This palette works across both pages.

Hex Code	Name	Usage
#2D6A4F	Forest Green	Primary accent — buttons, active states, links, focus outlines
#74C69D	Mint Green	Secondary accent — hover states, card borders, highlights
#D8F3DC	Pale Mint	Background tint — page backgrounds, card backgrounds, title areas
#1B1B1B	Near Black	Primary text colour
#6B7280	Cool Grey	Secondary text — roles, placeholder text, muted labels
FFFFFF	White	Card backgrounds, input field backgrounds
#E5E7EB	Light Grey	Input field borders in default state, dividers
